

Fixings you can really trust

**ONE PLUG
MANY TASKS**

PLASTIC PLUG

PLASTIC PLUG (PVC)

All Purpose cost effective fixing for medium & lightweight application.

Description

All purpose cost effect fixing for medium and lightweight application.

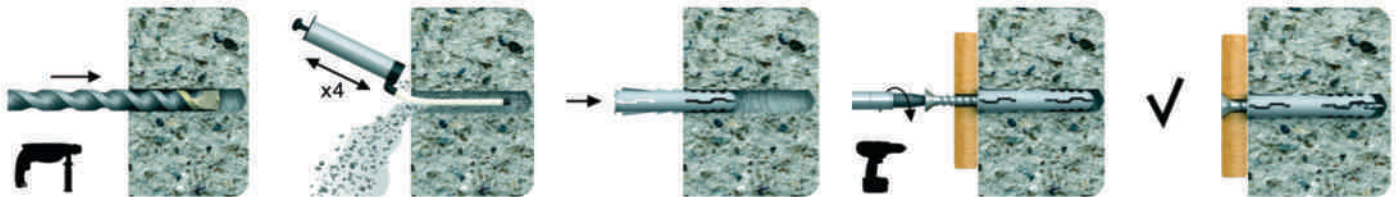

Features and benefits

- Suitable for wood and chipboard screws.
- M-teeth combined with side-links and screw-guide; ensure entire plug face is forced against walls of hole, for enhanced grip in soft materials.
- The wide neck is subject to no expansion pressure and prevents surface damage to tiles and plaster.
- Side-links stop plug from breaking open during insertion, ensuring positive action when screw is driven in.
- Offset block profile allows plug to hold firmly against sides of hole when expansion begins.

Applications

- Pictures • Lightening • Skirting • Shelves • Trunking • Cable Trays • Electrical Fitting

Installation

1. Drill a hole of required diameter.
2. Clean the drilled hole by blow pump.
3. Insert the plastic plug into the hole & tap.
4. Insert screw of required diameter into plug through fixture & tighten.

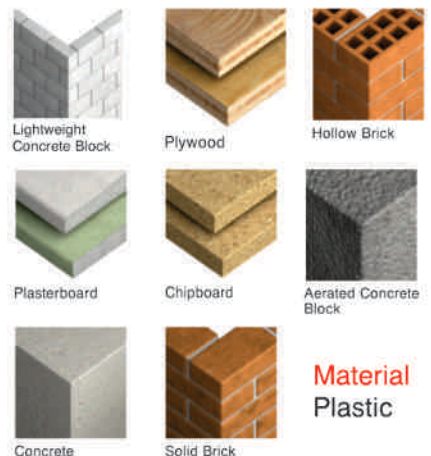

PLASTIC PLUG PVC WITHOUT SCREW

Product	Hole Diam. (mm)	Length (mm)	Product Image
