

Awarded by

### Suitable for :-

- Wooden, Timber battens.
- Skirting, faced & roof substructure.
- Metal, plastic doorframes & windows.
- Fireproof doors.

### Installation :-

### Tech. Data :-

- Material composition: Polyamide PA6 Nylon- steel zinc plated.
- Material, corrosion: steel zinc plated.

### Features:-

- Approved for multiple use in concrete & masonry for non structural application.
- Made from high quality polyamide PA6.
- Through fixing.
- Indoor & outdoor application.
- Nylon material absorbs vibration and noise.
- Extended expansion length guarantees maximum load-bearing capacity.

Awarded by

Suitable for :-

- Dense concrete.
- Natural stone.
- Lightweight concrete & aerated concrete blocks.
- Brickwork.

Installation :-

Tech. Data :-

- Material composition: Polyamide PA6 Nylon- steel zinc plated.
- Material, corrosion: steel zinc plated, S S.

Features:-

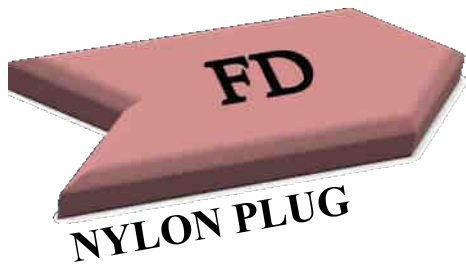

- NHF is time saving hammer-in nylon plug.
- Approved for multiple use in concrete & masonry for non structural application.
- Made from high quality polyamide PA6.
- Through fixing.
- Indoor & outdoor application.
- Nylon material absorbs vibration and noise.
- Extended expansion length guarantees maximum load-bearing capacity.

Awarded by

#### Suitable for :-

- Wood & chipboard screws.
- Fixing pictures, motion detectors.
- lamps, electric switches.
- Towel rails.
- Lightweight mirror cabinets.
- Letterbox, hanging baskets..

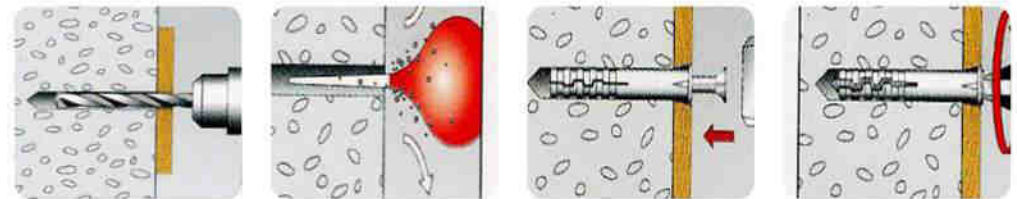

#### Tech. Data :-

- Material composition: Polyamide PA6 Nylon.

#### Features:-

- Stronger than standard grade plastic expansion plug.
- High quality.
- High impact load & knock in protection.
- Made from high quality polyamide PA6.

#### Installation:-
